Enrichment Programs - Summer Programs, Study Abroad, etc.

The Dallas area offers rich opportunities to learn about healthcare hands on: 13 major hospitals, hundreds of smaller practices, dozens of research venues, and a vibrant community of public health and community outreach programs.

Professional Experience

Working and observing in health settings is a critical aspect of pre-health education.

• **UT Dallas Service Learning** can help you to find volunteer opportunities.
• The **UT Dallas Career Center** can help you identify your strengths and interests, explore career options, and develop your resume and interview skills.
• **Student Organizations** are great places to meet other students who've found healthcare experiences in the Dallas area.

Academic Enrichment

Find a summer program or internship:

• **AAMC Database**
• **ExploreHealthCareers Database**
• **RIT List**

Of special note to UT Dallas students:

• **Summer Medical and Dental Education Program (SMDEP)**
  • **Six-week Summer Academic Program** Free program for talented pre-med and pre-dent students completing their freshman or sophomore years of college. Offered at 12 sites around the nation. Apply ASAP!

• **Retina Foundation of the Southwest**
  • Undergraduate and Post-Graduate research opportunities in ophthalmology.

• **Texas A&M College of Dentistry**
  • **Summer Pre-Dental Enrichment Program (SPEP)** - SPEP Collegiate II is a six-week summer program which provides college and post-college students an opportunity to:
    • prepare for and successfully take the DAT,
    • strengthen their academic science background,
    • learn more about the field of dental medicine,
    • broaden their interest in biomedical and clinical sciences,
    • learn useful study patterns for professional study,
    • increase their competitiveness for admission to dental school, and
    • enhance their success once admitted to dental school.
  
  **Deadline: January 31**

• **UT Southwestern Medical Center**
  • **Summer Undergraduate Research Fellowship Program (SURF)** - Enhanced research training of natural science undergraduates who are interested in obtaining the PhD or MD/
PhD degrees. 10-week program, $4000 stipend. Feb 8

• The University Of Texas Southwestern
