Enrichment Programs - Summer Programs, Study Abroad, etc.

The Dallas area offers rich opportunities to learn about healthcare hands on: 13 major hospitals, hundreds of smaller practices, dozens of research venues, and a vibrant community of public health and community outreach programs.

Professional Experience

Working and observing in health settings is a critical aspect of pre-health education.

- **UT Dallas Service Learning** can help you to find volunteer opportunities.
- The **UT Dallas Career Center** can help you identify your strengths and interests, explore career options, and develop your resume and interview skills.
- **Student Organizations** are great places to meet other students who’ve found healthcare experiences in the Dallas area.

Academic Enrichment

Find a summer program or internship:

- **AAMC Database**
- **ExploreHealthCareers Database**
- **RIT List**

Of special note to UT Dallas students:

- **Summer Medical and Dental Education Program (SMDEP)**
- **Six-week Summer Academic Program** Free program for talented pre-med and pre-dent students completing their freshman or sophomore years of college. Offered at 12 sites around the nation. **Apply ASAP!**
- Retina Foundation of the Southwest
- **Undergraduate and Post-Graduate research opportunities in ophthalmology.**
- Texas A&M College of Dentistry
- **Summer Pre-Dental Enrichment Program (SPEP)** - SPEP Collegiate II is a six-week summer program which provides college and post-college students an opportunity to:
  - prepare for and successfully take the DAT,
  - strengthen their academic science background,
  - learn more about the field of dental medicine,
  - broaden their interest in biomedical and clinical sciences,
  - learn useful study patterns for professional study,

https://ptg.utdallas.edu/sites//prehealth/enrichment-programs/makepdf
• increase their competitiveness for admission to dental school, and
• enhance their success once admitted to dental school.

**Deadline: January 31**
